PRELIMINARY

ENVIRONMENTAL FEDERATION OF OKLAHOMA
BOARD MEETING

March 23, 2016 | 10:00 a.m.
Oklahoma Oil & Gas Association
5801 N. Broadway Ext., Suite 304
Oklahoma City, OK 73118

AGENDA

I. Call to Order

II. Antitrust Statement

III. Approval of February 24, 2016 Board Meeting Minutes

IV. Chairman's Report

V. President's Report

VI. Activities Committee Report

VII. Other Committee Reports

VIII. Old/New Business

IX. Next Meeting

X. Adjournment

ENVIRONMENTA FEDERATION OF OKLAHOMA
BOARD MEETING MINUTES
February 24, 2016
OKOGA Meeting Room

Present
Kathryn Crenwelge, Steve Landers, Terri Roberts, Jody Reinhart, Mike Bednar, Paula Hofford, Darrell Townsend, Ron Jarman, Usha Turner, Bud Ground

Present (call in)
Tom Lazarski, Lundy Kiger

Board Members Not Attending
Jay Adair, Jim Haught, Robbie Gillem, Kendall Stegmann, Rob LeForce, H.J. Reed, Gerald Butcher

I. Call To Order
Chairman Crenwelge called the meeting to order at 10:04 am.

II. Antitrust statement below was read by Bud Ground to which all agreed.
"We are here today to discuss the various legislative and regulatory matters in which our organization has an interest. We are not here, and shall not, discuss pricing or products or engage in any type of anti-competitive behavior or activities that could violate or otherwise be in conflict with federal or state anti-trust laws."

III. Approval of January, 2016 Meeting Minutes
Ron Jarman made the motion to approve the November minutes with one change: On 2nd page, 1st bullet, 3rd line should be changed to read "this still shows a net income". Usha Turner seconded the motion. The motion carried unanimously.

IV. Chairman's Report
Chairman Crenwelge thanked all who were able to come to the dinner held in Jim Barnett's honor the night before.

V. Report
President Ground asked the board to review the packet. The only change was a new ODEQ calendar was received after the Board packet was sent out. In other changes, Jim Barnett needs to be removed as General Counsel on the EFO website. They are trying to ensure correct information is available on the website.

- Financial reports.
    - Reconciliation Summary Report
    - Reconciliation Detail Report
    - Profit and Loss Budget Performance, October and YTD
    - Income by Customer Summary
    - Corrected 2016 Budget summary

The Summary of Income showed an increase of the expenses for the annual meeting. It went up to $4500 dollars in General Expense. He pointed out that the last payment to Dorner Saunders is the last payment for Jim Barnett being council. He noted that Kennedy Insurance is now our General Liability Insurance for meetings here and elsewhere. It shows the different payments and receipts.

We're starting to get the 1st quarter payments for membership. On the Profit & Loss Budget Performance for January, it shows $526.00 is the ads from the website. There were not a lot of expenses in January. On the Balance sheet, there was not a lot to say. At the end of 2016, for every member that had paid us for anything, registration, etc., we keep a running total. There is a new member called Olson Associates. Central Plains Cement Company also is a new company member. The final item is the ODEQ Calendar of Events.

We don't have counsel for EFO until Jim stepped down as President and it was also done to keep involved. Bud is looking for an attorney to be a Board member who wants to be involved with EFO. There are different law firms that are interested and want to be more involved with EFO. Inside or outside council would be considered. Bud has already talked to a few people. If the Board wants to pursue the idea of council, we would need to set up a small work group. If everyone will send their recommendations of council recommendations to Bud, he will get started. One of the things that Jim tracked for EFO are the amicus briefs still to be tracked. There are some good environmental law attorneys who would be interested and need to have experience in non-profit. The target date is to having someone within 3 months. Crenweldge directed Bud to start the process, and they will start a work group on the council selection.

On the website and on the newsletter, the Board members were encouraged to visit the website frequently and click on the advertising service. Each advertiser has a counter, and the more we have click on it, We have ISI Environmental (present at annual meeting, not a member) not, Sage Environmental, American Environmental, Covanta, and ANA Lab (not a member) who are advertising on our website. They are not members and are paying to advertise on our website. In November, we had a total of $351 income from this service. In December, Multi-View had $1198 income, of which EFO received $526.

Bud is also going to hire a small local company that will help EFO with that and other written materials, brochure, events, etc. Logo has been re-done and it is camera-ready art now.

Bud was contacted by a company named Crowd Compass that sets up events 100% electronic, either annually or by event. They do events up to 30,000 people. It is geared towards a "pick and choose" menu as to what they offer. Everything is done electronically (e.g., conference sign-up, picture (if available), others can see who is registered, etc.) Vendors would do the same thing. We set our schedule, bio, contact info, etc. When the app is updated, everyone gets the new update immediately. EFO currently spends $1500 in printing documents for the Annual Meeting currently, but this does not include personnel time, etc. Usha likes the idea of getting rid of the headache of the Annual Meeting. It can be fully integrated with the conference. Name badges could be printed on-site once they registered at the conference.. This could organize our entire event. It was recommended that we take last year to replicate and how much it would cost to do that with personnel time added into the equation. Since it is our 25th anniversary, we need to move this direction. Paula indicated that a lot of other conferences are going this way. Another benefit is a speaker survey made available right after their presentation. This would allow us to get good information on speakers. The board gave Bud direction to look into this further. Paula brought up about whether this service would spellcheck documents. Once costs are understood, the Board will review it for a motion.

VI. Activities Committee Report – Paul Hofford and Ron Jarman

- Save the dates for the Legislative Reception and Regulatory Newsreel have been sent out.
- Paula is working with the Lloyd Kirk of the DEQ for opportunities to do training. They are looking at August to do something like reporting procedures.
- The draft agenda for regulatory newsreel has been circulated to the media chairs to solicit presenters.
- The preliminary notice for the annual meeting has been sent out to JD Strong, Secretary Teague, and Director Thompson, and Assistant Director Givens. It was discussed whether to send dates to Wildlife Director Hatcher. The dates for other upcoming events would also be sent to this group of agency or government leaders. The Region VI EPA Administrator also needs to have this information. Ron will send Paula the information on the Region VI Administrator information so he can get it on his calendar and prevent conflict.
- Paula may add the upcoming OSHA Electronic Reporting to the DEQ training event on Electronic Reporting.
- They are looking for a top level speaker known nation-wide for the 25th anniversary of EFO. Board member are to forward those ideas to Ron, Paula, or Bud. We also need it to be consistent with our theme: 25 years of Environmental Law, Policy, and Politics – Where Do We Go From Here. Possible thoughts are past EPA Administrators who had been working with EFO for several years. Bud will send a note out for ideas. Sometimes EFO has paid speakers. This may be one that we pay. It was discussed that a company may want to sponsor this major speaker. It was recommended to start with Ex-Administrator or Regional Administrator. Others to be considered are ex-governors as a speakers for the EFO meeting.

VII. Other Committee Reports

Air Quality – Usha Turner

- The EQB meet last Friday and passed the SSM rule. It now goes to the legislature for approval.
- SSM Rules is the choice is whether to permit them or your reliance on the DEQ and their interpretations. OG&E is going to obtain a permit. There was a recent objection in Texas in 2012. It may be things that we have to look at for permits. This applies to all issues, not just SSM. State's interpretation and mitigating factors are getting less favorable in their interpretations as well as the differences between the DEQ inspectors. Those rules are already in play, pending legislative approval.
- The Clean Power Plan was stayed by the supreme court and will remain stayed for at least the next 2 years.

Water - Mike Bednar

- The final effluent guidelines for steam generating were published Jan 4, 2016, and passed on Nov 3, 2015. The compliance period is between 2018 and 2023 and it depends on your permit cycle and when your 5 year permit comes due. It will be subject to the new ELGs for both new and existing sources, POTW, vs direct or surface water as well as the differences between the types of streams. It is primarily going to affect heavy metals, TSS, TDS, and surrogates. There are different regulatory methods of compliance that get stricter as you go along. Bud did a survey of utilities, it showed that PSO has a draft permit in the public comment stage and it does not have any mention of ELG. Bud spoke with Shellie Chard-McCleary and she confirmed that until a rule is adopted, the state does not have authority to implement. At best the ODEQ will

adopt the rule by reference in July 2016. It then has to be approved by the ODEQ Board and then go to the legislature. The earliest that it could be implemented is November 2017. The rule asks if you want to apply for a Variance by May 2016. The ODEQ does not have the authority to accept a Variance; it would also have to be submitted to EPA.

- Produced Water. Sec Energy & Env was to develop a list of people to be on that, and EFO was invited. Bud was asked to participate on behalf of EFO. Other companies (OG&E, OIPA, OKAGA, etc.) were asked to be on that working group. The first meeting will be March 3rd.
- There is a Water Law course at the end of the month. Jeff of OG&E is going and will provide EFO with an update. At this conference, you can order the training materials after for office study.

Solid Waste – Tom Lazaraski

- The CCR rule was ready from EQB. Legislatively there is Bill 3019 that is looking at seismic zones and landfill. It is out of committee, but not on the floor.
- There are no SW or HW items going on. There is a few EPA information collection requests for Solid Waste and Hazardous Waste disposal facilities in the Federal Register.
- Tom mentioned that the EPA has published the 2015 annual enforcement results. Mostly there is a lot of water enforcement, surrounding the oil and gas industry.
- Steve Landers indicated that the rules of landfill closure are reviewed every 5 years. This will be presented at the next Solid Waste council on April 14th. This is above and beyond inflation.

OCC – Terry Roberts

- Terri said that Emergency Generator tanks will no longer be regulated. They will still be subject to SPCC but taking them completely out of regulation.
- It was discussed whether to send Commissioner Murphy an invite for upcoming meetings as she has spoken at them in the past (e.g., Regulatory Newsreel) and / or Invite other Commissioners. Invited her in the past. It needs to go to the Administrator and they will see that Commissioner Murphy has spoken in the past.

Safety – Jody Reinhart

- OSHA is expected to issue 3 rules by April. The two most important are: 1) Electronic reporting for 250 or more employees, which is expected in April 2016, and Crystalline Silica standard for both General Industry and Construction expected by the end of February. The other one to be issued is an update to the Walking-Working Surfaces.

Air - Robbie Gillem

Not present for this meeting.

Legislative – Bud Ground

- The Legislative committee still meets on Tuesday for lunch. Bills that are being tracked as Administrative that are not strictly environmental. Environmental has 9 bills and Water has 42 bills over 11 pages.
- This is a deadline week. If a bill doesn't come out of committee by tomorrow, it is dead.
- Bill 3019 did come out of committee but no problems are seen with it. Bill 2406 by Rep Faught covers Clean Air Act fees. DEQ exempted residential but commercial are to be registered. In

Texas, you get a form to fill out for registration upon purchase. If it is commercial, you either permit or register it. A group does not want to do that. This rule will require they register and pay a one-time $350 fee.

- There is another bill on Administrative Procedures Act for rules to process. He is changing it so that Legislators can amend a word and not reject the entire regulation.
- EFO is getting involved with unmanned aerial vehicles and we want to ensure the law is right to allow industry to do surveillance at our own facilities, transmission, or pipeline, etc., but others cannot do surveillance and use the info in a lawsuit, etc.
- Bill 1379– a legislator wrote saying we cannot comply with Clean Power Plan until AG says it is ok.
- State Question 777 is the right to farm: That will be on the ballot. This was passed last year to be on the ballot this year. The question says that the legislature cannot pass laws impacting farming without compelling state reason. EFO is neutral on this state question. Language added per EFO interests. The City of Tulsa has a bill that says that water is a compelling state interest.
- There are 35 termed out or not running next year. There will be 40 or so new people in legislature next year. House is up for re-election, ½ of the senators, and all of the representatives.

VIII. Old or New Business

None.

IX. Next Meeting

The next scheduled meeting will be March 23rd in the OKOGA meeting room. April 12th is Legislative Reception. They are looking for sponsorships. Paula is unable to be there and we'll need assistance to check people in, name tags, etc.

X. Adjournment

Ron Jarman made the motion to adjourn with Usha Turner seconding the motion. The meeting was adjourned at 11:30 am.

Action Items

Date	Action Item	Responsible Person	Completed?	Comments
2-24-16	Names for potential General Counsel	Bud		
2-24-16	Research an electronic event system	Bud		
2-24-16	Names of keynote speaker for the annual meeting	Bud		
2-24-16	Meet with new OCC Administrator	Bud & Terri

Downtown Recyclers Toastmasters

● Sponsored by: DEQ ● Topic(s) This is where leaders are made. Chartered in 2000 and open to the public and to DEQ employees, the Downtown Recyclers Toastmasters Club is a safe place for members to develop and polish their communication skills and leadership habits. Guests are welcome at no cost and may participate if they wish; the cost of membership is $42.00 per six-month renewal period. The club meets every Wednesday except state holidays. ●12:00 p.m. – 12:55 p.m. ● Location: DEQ, 2nd Floor Training Room, 707 N. Robinson, Oklahoma City, OK ● For more information please visit http://recyclers.toastmastersclubs.org visit us on Facebook, or contact: J. Paul Davis ● 405/702-5132 or 405/401-7624 ● j.paul.davis@deq.ok.gov

March 9, 2016
AWMA – MEETING CANCELLED

● Sponsored by: DEQ & AWMA ● Topics: Tim Seidel, manager of the Phillips 66 oil refinery in Ponca City, will make a presentation of the state of the oil industry in Oklahoma and the nation. The presentation will also include the impact of energy industry on Oklahoma's commerce and the reasons for the volatility of market and the different variables that drive it. The presentation has special relevance given the fact that the price of oil has dropped 75% within the last 18 months. ● 11:30 a.m. ● Location: DEQ, 1st Floor Multi-Purpose Room, 707 N Robinson, Oklahoma City, OK ● Contact: Saba Tahmassebi ● 405/702-5100 ● saba.tahmassebi@deq.ok.gov

March 22-24, 2016
Visible Emissions Evaluation Training (Smoke School)-Oklahoma City, OK

●Sponsored by: CENSARA/DEQ ●Topic(s): The Department of Environmental Quality, Air Quality Division in conjunction with CENSARA, is again offering the Visible Emissions Evaluation Training Courses for the spring of 2016. In addition to the field certifications, a classroom lecture describing visible emissions evaluation procedures will be offered at both locations. These courses will meet EPA Method 9 and Method 22 training requirements. Individuals successfully qualifying at the field certification will be certified to make valid visible emission readings. Comments: Registration begins at 8:00 a.m. and class begins at 8:30 a.m. Lecture will be held on March 22 at Hampton Inn. Field Certification will be held March 23 and 24 at Wiley Post Park. A fee of $100 for Lecture and $200 for Field Certification is required. The fee amount is for CenSARA member pre-registrations received by March 15. Companies based in Oklahoma are eligible for the CenSARA rate. Registrations received after this date will be subject to an additional charge. Bring pens, a clipboard and a lawn chair. Dress appropriately for the weather.● 8:30 a.m. ● Location: Hampton Inn South, 920 SW 77th Street, Oklahoma City, OK (405) 602-3400 **AND** Wiley Post Park, SW 17 and Robinson, Oklahoma City, OK ● Contact: Ron Hensley, CENSARA, at rhensley@censara.org or Braxton Edwards, DEQ, at braxton.edwards@deq.ok.gov ● 405/378-7377 or 405/702-4100

Board and Council agendas often differ from this early calendar description.
Please call the contact person a week prior to meetings listed for more definite information.
If you have any entries for the Calendar of Events, please email to calendarofevents@deq.ok.gov
