### Summary of Services or Products

ALS-Houston, is a NELAC accredited full-service environmental laboratory, began operations in 1999 and is home to ALS' North American corporate headquarters.

ALS-Houston provides reliable analytical testing data to consultants, engineering firms, an array of industries, and governmental agencies around the world to assist them in making informed decisions about their environmental projects. As a NELAC and DoD accredited laboratory, we also hold multiple state certifications. In our Houston Laboratory we can test for everything from PFOS 1633 to Dioxins to routine VOCs. Our comprehensive range of environmental testing and technical support services is complemented by a solid commitment to outstanding quality and exceptional client service, a reputation that sets us apart from our competition.
