

ENVIRONMENTAL FEDERATION OF OKLAHOMA

Darrell E. Townsend II

Darrell currently serves as Vice President of Ecosystems and Watershed Management with the Grand River Dam Authority. He holds a doctorate in ecology (Department of Natural Resource Ecology and Management) from Oklahoma State University (OSU). He currently serves as an Adjunct Faculty member in Integrative Biology with OSU and serves in the same role with OU's School of Civil Engineering and Environmental Science. His expertise lies in development and coordination of new and innovative approaches to multifaceted watershed management, focusing on broad-scale conservation and restoration throughout a complex multi-jurisdictional watersheds.
