

ENVIRONMENTAL FEDERATION OF OKLAHOMA

Dave Smith

Dave Smith has worked in the environmental industry for over 25 years, which includes the last 14 years as a Senior Environmental Engineer for the Environmental Engineering Department at the American Airlines Maintenance Base in Tulsa, OK. His primary focus is managing the hazardous waste program at the maintenance base, which generates over 1,600 tons of hazardous waste annually.

Dave has a great deal of experience in all areas of hazardous waste, including transportation, treatment, storage, disposal, and generation. He has performed lab packs, worked household hazardous waste collection events, transported hazardous waste, coordinated emergency responses, conducted environmental sampling, managed disposal of radioactive materials and worked at Superfund sites.

In 1992, Dave graduated from Butler Community College in Eldorado, KS, with an Associate Degree in Electronic Technology. He then attended Friends University in Wichita, KS and graduated in 1996 with a Bachelor of Science in Biology. In 2012 Dave graduated with a Master of Science Degree in Environmental Science from Oklahoma State University, Tulsa, OK.

Dave has been a Certified Hazardous Materials Manager (CHMM) since 2005, holds a D Level Water/Wastewater Works Operator Certification, C Level Wastewater Works Lab Operator Certification, and is the Committee Chair of the Environmental Federation of Oklahoma Land Protection Committee.
