### Summary of Services or Products

**SWCA** is a nationwide environmental consulting firm. We help clients navigate the environmental compliance process using scientific expertise and in-depth knowledge of the industries we serve. We've been in business for more than 40 years and are recognized leaders for bringing sound science and creative solutions to our clients. Our biologists, archaeologists, planners, and technical experts work together to preserve natural and cultural resources for tomorrow while enabling projects that benefit people today.

In the face of rapid environmental, economic, and societal changes, our purpose is simple: to preserve natural and cultural resources for tomorrow while enabling projects that benefit people today. We do that by offering a suite of environmental consulting services combined with local knowledge, regulatory expertise, and high-quality service. We build long-term, trusting relationships with our clients and guide their projects to successful completion. With a nationwide presence, we're able to rapidly pool resources and respond to our clients' needs.
