Summary of Services or Products

We're Olsson, a nationally recognized, employee-owned engineering and design firm with a rich history of success. Founded in 1956 on the very mindset that drives us today, we're here to improve communities by making them more sustainable, better connected, and more efficient. Simply put, we work to leave the world better than we found it. Though our philosophy hasn't changed since John E. Olsson opened our doors many years ago, we have certainly evolved, adding dozens of offices across nine states. Olsson can perform professional services nationwide. We have more than 2,000 professionals running 30 offices across nine state sand offer a comprehensive list of services: planning and design, engineering, field services, environmental, and technology.
