Summary of Services or Products

Sponsor of the State of Oklahoma In-Lieu Fee Stream and Wetland Mitigation Program. The Program works with industry to reduce permitting time and satisfy mitigation requirements for projects permitted under Sections 404 & 401 of the Clean Water Act by creating centralized stream and wetland mitigation sites that improve the state's aquatic resources. In addition, our staff are knowledgeable in the US Army Corps of Engineers permitting process and can offer consulting services in wetland & stream delineation, 404 & 401 permitting, and endangered species assessments.
