

ENVIRONMENTAL FEDERATION OF OKLAHOMA

Jaron Hill

Jaron Hill has over 15 years of both agency and industry experience in environmental program management. He began his career as an air quality inspector for the Oklahoma Department of Environmental Quality focusing on oil and gas, manufacturing, and utility power compliance with state air permits and federal regulations. In 2010, he moved to the oil and gas industry and managed air and environmental programs for upstream and midstream facilities at Chesapeake Energy, Access Midstream, The Williams Companies, and Tapstone Energy.

While with industry, Mr. Hill focused on minimizing risk through compliance assurance and permitting process improvement to meet

project deadlines. He is a recognized expert in air compliance, serving on many industry association committees and presenting at environmental conferences around the country.

He served as the Environmental Committee Chair for GPA Midstream Association from 2018 to 2021. In 2020, he moved into environmental consulting. In 2022, Jaron and another partner formed MHT Consulting. Along with a team of dedicated staff, he developed the firm's environmental capabilities to serve some of the largest clients in the energy segment. Mr. Hill has a B.S. in Biology and a M.S. in Environmental Science from Texas Christian University.
