Summary of Services or Products

Pace Analytical founded in 1978, is the largest American-owned environmental laboratory in the USA with over 50 laboratories and over 50 service centers across the nation. Our network offers full service organic & inorganic testing specializing in the analysis of trace level contaminants in soil, air, water, wastewater, waste, and biota. In addition, we offer specialty services including PFAS, Radiochemistry, Air Toxics, Drinking Water, Dioxins/Furans, PCBs (low level), Rapid Response/ER, Microbiology, Aquatic Toxicity, Low-Level Mercury, Sediment & Tissue Analysis, Field Sampling, Stack Sampling, & Mobile Laboratories. Pace is accredited in all 50 states as well as holding national certifications through NELAC, A2LA, ELAP, and AIHA.
