Summary of Services or Products

EWI provides comprehensive environmental services for your company or municipality. In short, if you have an environmental need, we'll find a way to help. The large variety of services we offer under one roof, allows us to be flexible and cost effective while streamlining operations and project management for our clients. As a federal contractor, we serve a variety of government entities, industries, and companies throughout the U.S. and abroad.

When our clients have a need – we dive in, diagnose, and apply the right combination of science, safety, grit, and ingenuity to get the job done safely and correctly.
